CAREER SUMMARY

BS Computer Science student at Cebu Institute of Technology – University and Cebu Solutions Fest finalist, applying for the N-Compass TV Information Technology internship (January–June 2027). Builds and ships full-stack web and mobile applications with React, Next.js, TypeScript, Tailwind CSS, and SQL databases, with hands-on experience in AI integration, GitHub workflows, and systems deployed for live users. Detail-oriented from two summers of Excel-based data work, and ready to work on-site at Cebu HQ and contribute real work from the first week.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, TypeScript, Tailwind CSS, PWA
- **Mobile:** React Native (Expo), Kotlin
- **Backend:** Python/Flask, PHP, REST API integration
- **Databases:** Supabase (PostgreSQL), MySQL, SQLite, SQL
- **AI:** Gemini API, RAG (pgvector), OCR, AI-assisted development
- **Desktop:** Electron, Tauri/Rust, JavaFX, C#/.NET
- **Tools:** Git/GitHub, Figma, Microsoft Excel
- **Languages:** JavaScript, TypeScript, HTML, CSS, Python, Java, C, C#, C++

ACHIEVEMENTS AND COMPETITIONS

- **Finalist,** Cebu Solutions Fest (GeneRX)
- **Participant,** IBPAP HackIT (Jeepney Mobility Platform)
- **Co-founder,** emPress Photobooth (student-led business)
- **CNL Officer,** College of Computer Society, CIT-U
- **Can You HackIT Cebu Certificate** (August 25, 2026)
- **Cebu SolutionsFest 2026** (June 17, 2026)

CERTIFICATIONS

- **CodeChum Java OOP:** Scored 94% (May 28, 2026)

EDUCATION

- **Bachelor of Science in Computer Science** – Cebu Institute of Technology – University, Cebu City (Expected Graduation: 2028)

PROJECTS

GeneRX – Generic Medicine Finder (Prototype) | Lead Developer | React Native, Expo, Supabase, Gemini | Finalist, Cebu Solutions Fest

- Prototyped prescription lookup in 3 languages (Filipino, English, Cebuano), by implementing Tesseract.js OCR and a DOH-based data pipeline.

MiTinda – Karenderya Management PWA | Developer | React 19, Vite, Tailwind CSS, Cloudflare Pages

- Replaced a Messenger-notes routine with a 3-tab tool (menu planning, market shopping list, customer credit tracking) for a family food business, by building tap-based dish selection and balance tracking.
- Kept the app fully usable in zero-signal wet markets and live at no hosting cost, by building an offline-first PWA with service-worker caching, localStorage, and Cloudflare Pages deployment.

Jeepney Mobility Platform | Backend and Data Lead | Next.js | IBPAP HackIT

- Built a prototype trip-data backend on simulated data for 6 Cebu corridors, by building seeded trip generation and gap-detection logic that surfaces under-served routes.

emPress Photobooth and EmpressLedger | Co-founder| Electron, React, TypeScript, Flask, Tauri, Rust

- Shipped production systems for a live university and outside event, by building a photobooth (capture, printing, QR sharing, cloud upload) and a finance tracker.

ClassSync – Group Project Management System | Developer | Java, JavaFX 21, MySQL, JDBC, Gemini API

- Built a desktop group project management system for an OOP 2 finals project, by applying object-oriented design in JavaFX 21 with a MySQL database connected through JDBC.
- Added AI-assisted grading, by integrating the Gemini API into the application.

WORK EXPERIENCE

Data Entry Associate – ALBASA Cebu | (June–August 2025; June–August 2026)

- Maintained accurate business records across two consecutive summers, by encoding and organizing data in Microsoft Excel.

Freelance Ticket Sales Monitor – 901 Studios PH, Solar Studios inc. | (September 2024 - December 2025)

- Delivered accurate real-time counts of ticket buyers per time slot and total gross, by tracking and logging every sale in Excel and organizing the counts into summaries that showed peak purchasing periods.

LEADERSHIP

- **CNL Officer, College of Computer Society, CIT-U:** supported student events, by assisting with communication and event preparation.
